SUMMARY

Final-year B.Tech student looking for a Data Analyst internship. Built dashboards and cleaned real datasets in college projects.

SKILLS

Programming: Python
Databases: SQL
Data Analysis: Excel, Power BI, Statistics, Data Visualization
Data Science: Pandas
Tools: Git

PROJECTS

Sales Dashboard | Power BI, SQL, Excel

- Built a Power BI dashboard that tracks 12 months of sales by region
- Wrote SQL queries to join 4 tables and prepare the data
- Presented findings to 20 classmates

Student Marks Analysis | Python, Pandas

- Cleaned a dataset of 5,000 rows using Pandas
- Found the top 3 factors linked to low marks with basic statistics
- Shared the code on GitHub

EDUCATION

B.Tech in Computer Science, Sample University | 2023-2027 | 8.2 CGPA
